PinnacleAIS HQ Construction Takes Shape

Pasadena, TX - Progress is underway on the construction of PinnacleAIS' new company headquarters. Soon after the celebrated groundbreaking on August 2nd, construction efforts launched full swing with a plan to be completed by January 2011.

PinnacleAIS has recently experienced significant growth both in revenue generation and number of employees. Due to this growth, it was soon apparent that the company needed room to expand. Projections for future operations suggest that this growth will steadily continue. "We expect that over the next 5 to 10 years this campus will house over 1,000 employees," Ryan Sitton, founder and CEO, commented. In all, eighteen acres of land were purchased to allow for this future expansion.

The construction of this building carries implications beyond PinnacleAIS and into the surrounding community of Pasadena. The introduction of this new infrastructure to the Pasadena area is expected to spur growth for the city and encourage more companies to build in the surrounding areas.

About PinnacleAIS

Based in Houston, TX, PinnacleAIS is a leading technology and services provider, specializing in wholesale improvements in asset integrity for the petroleum, chemical, and mining processing industries. Through innovative technology and world class services, PinnacleAIS offers a unique approach to asset integrity, helping operating companies realize substantial improvements in compliance and safety while simultaneously reducing costs and business risks.
